DETAILED ACTION

Information Disclosure Statement

1. The references listed in the Information Disclosure Statement submitted on 12/15/2003 have been considered by the examiner (see attached PTO-1449).

Priority

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-24, drawn to an apparatus (interface or system), method and a program element (program code) on computer readable medium, classified in class 704, subclass 257.
 - II. Claim 25-30, drawn to a development tool with application design, classified in class 704, subclass 270.

4. The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is

Art Unit: 2626

separately usable. In the instant case, subcombination Group II has separate utility such as an application design tool that can be used for other interactive speech applications and/or services, like voice browser. See MPEP § 806.05(d).

5. Because these inventions are distinct for the reasons given above and the search required for one Group is not required for any other Groups, restriction for examination purposes as indicated is proper.

6. Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be further examined even though the requirement is traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
